# Extra Functionality G00246442

Home Page

1. Settings page icon on home page has been moved to the right of the title bar. Provides a better-looking user interface especially when viewed as it would appear on a mobile device.

2. A new quote button as been placed alongside the settings icon on the home page. Once clicked it get a new quote and update the page. The button incorporates an ionic icon with text and is outlined.

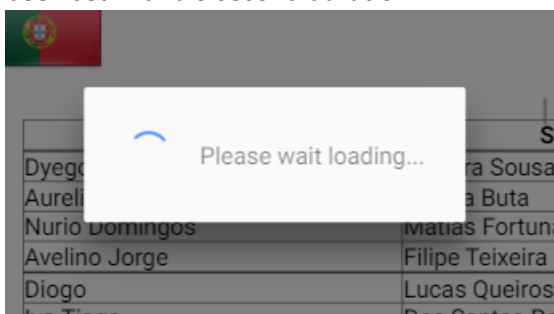

3. Player Information table has an ion-scroll feature. Scrolling on the Y axis allows the rest of the page to remain stationary. Scrolling on the X axis was added for times when table width exceeds the mobile device screen size. A good example of this is using the country ID 98 for Portugal.

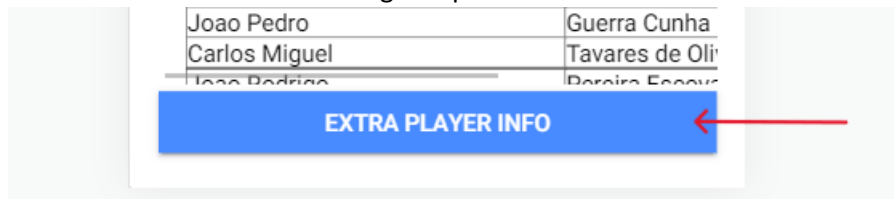

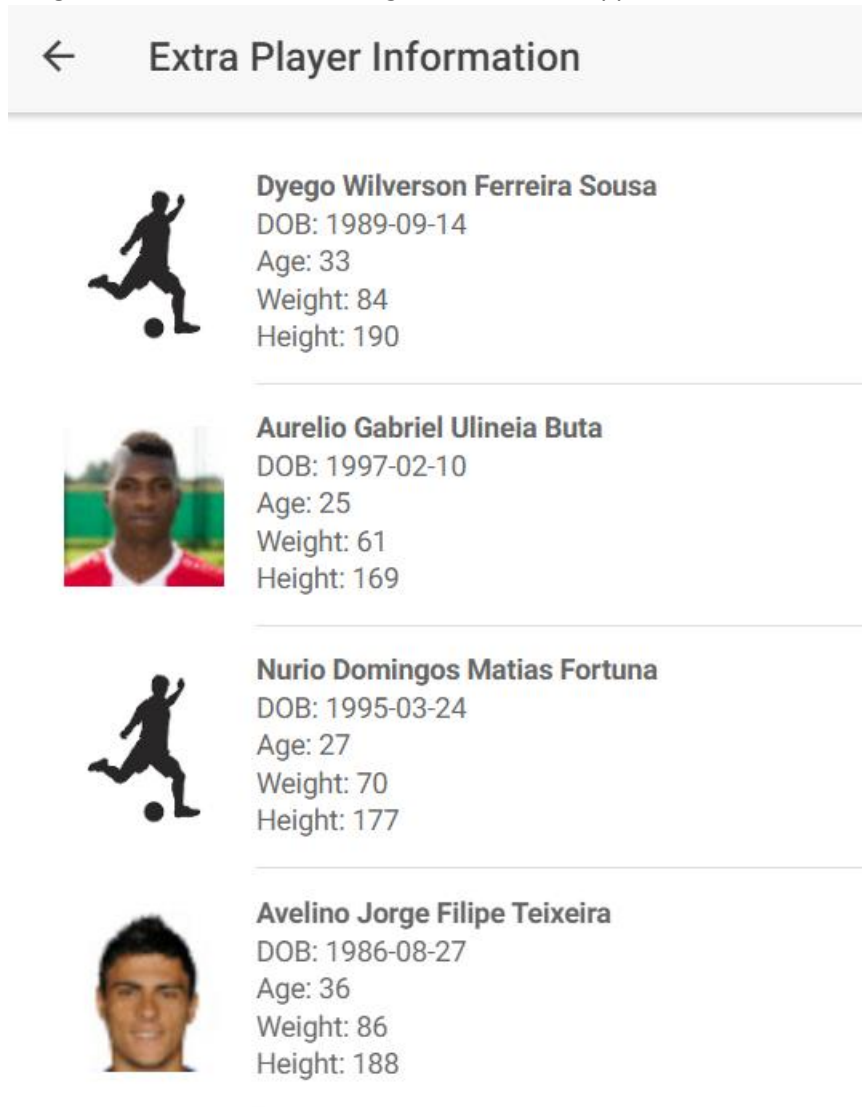

4. On returning to the home page after using the settings page a loading component has been used to allow time for the homepage to get and display the requested information. It has been set with a 3 second duration.

5. Extra Player Info button will be displayed on the bottom of the page once a country has been selected. Brings the user to a new page where the players are displayed as an ion-item in an ion-list. It also uses loading component as shown in number 4.

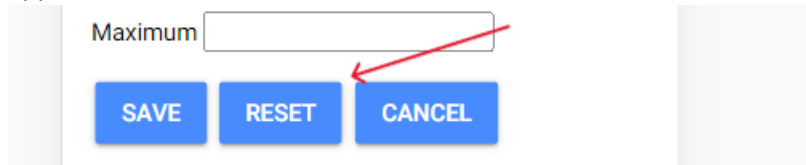

If an image is available, it will be displayed otherwise a default image will be used. This image is stored in the *assets/imgs/* folder of the application.
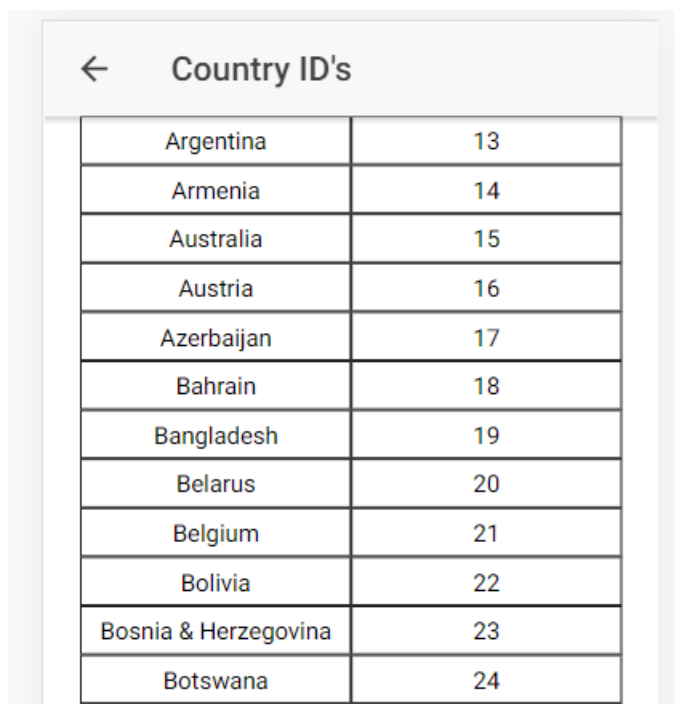

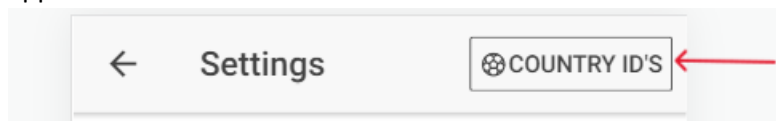

Settings Page

6. An extra button that resets the application has been added. It clears all values entered on the page and those in storage as well. Returns user to homepage as it appeared when application was first launched.

Maximum		
SAVE	RESET	CANCEL

7. Another button has been added to the title bar of the settings page. The button incorporates an ionic icon with text and is outlined. It brings the user to a new page with the country's names and their corresponding ids in an ion-grid format. Allows more informed use of the application.

← Settings ⊗ COUNTRY ID'S

← Country ID's

Argentina	13
Armenia	14
Australia	15
Austria	16
Azerbaijan	17
Bahrain	18
Bangladesh	19
Belarus	20
Belgium	21
Bolivia	22
Bosnia & Herzegovina	23
Botswana	24
